Physician Practice Benchmarking

Increased insurance carrier and federal regulatory demands and scrutiny mean it is more important than ever to have timely and accurate coding, billing and documentation.

RevCys' consultants help physician clinics and groups, rural health clinics, non-physician practitioners and administrators evaluate practice coding and billing operations. We can help you to:

- Complete compliance and documentation audits
- Review HCFA 1500 charge capture - comprehensive baseline and/or focused compliance audits based on current ICD-9, CPT-4, CMS and industry compliance guidelines.
- Perform coding benchmark guidelines for practice comparison and insight into missing charges and lost revenue.
- Supply coding education and support.
- Review and develop super bills.
- Review denial management and appeals process..
- Review operations.
- Interpret and help implement carrier guidelines.
